Hi Bill,

I believe that claims 24-29 need to also be grouped with the other process claims, correct? They appear to be similar.

ALSO, an election of species needs to be done for the resin and its curing agent. It may not be ours depending upon the resin selected.

For those reasons, I am sorry, I cannot accept it.

Thanks, Randy

Applicant has elected claims 1-16 and 21-38, which I believe belong in class 525.

If so, please re-docket. If not, please advise as to a more proper home.

Thanks!
